Claims 70-91 are allowable because the prior art of record, taken alone or in combination, fails to disclose or render obvious wherein the plurality of first and second transmission plates are interleaved and positioned with respect to the corresponding pluralities of first and second bars such that the emitted waves of the first plurality of wave emitters and the second plurality of wave emitters are interleaved in an output region comprising the output surfaces of the first and second transmission plates in combination with the rest of the limitations of the base claim.
